To Whom it May Concern

Zikhulise Community Upliftment Project

As a past president of the ZCCI and a long standing member of the Chambers EXCO I have had an indirect relationship with Zikhulise, witnessing their many exceptional achievements over the last 20 years, under the leadership and guidance of Julie Johnson and her dedicated team.

I am aware of the many corporate projects they have successfully undertaken and sustainable small business ventures that they have established and mentored over the years which ranged from Pottery, beadwork, baking, sewing and embroidery.

The training they offer has enabled many disadvantaged persons to learn skills that enable them to gain the confidence to start and operate their own small business ventures and become self-sustainable.

Zikhulise has through numerous Community Projects, in the greater area of uMhlatuze, provided many women and youth with confidence and skills that has uplifted them and made a positive impact on their lives and their families.

It is my pleasure to recommend Zikhulise as one of the most reliable institutions adding value to the community they serve and believe they are most worthy of any financial assistance that is made available to them.

If any further information or clarity is required it will be a pleasure to assist. My phone contact is 083 395 4000.

Regards,

Mike Patterson
