To Whom It May Concern
Zikulise Community Upliftment Project

Dear Sir/Madam,

Fives Services Mzansi is pleased to recognise the outstanding contribution that Zikulise Community Upliftment continues to make within our community. True to its name, *Zikulise* — meaning **“to grow” or “to nurture”** — the organisation has consistently demonstrated its commitment to empowering individuals through skills development, training, and entrepreneurship support.

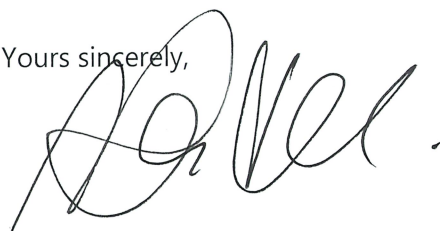

Your programmes in sewing, baking, beading, hair braiding, and business management have equipped many participants with the confidence and capability to establish sustainable income-generating ventures. The professionalism and dedication of your team are evident in the high standard of training provided and the positive outcomes experienced by your learners.

Fives Services Mzansi is proud to have sponsored former Zikulise learners who have benefited directly from the training and mentoring received through your organisation. Their business success reflects the quality and impact of the support Zikulise provides and reinforces the importance of the work you do in uplifting and strengthening local communities.

We commend Zikulise for its commitment to integrity, accountability, and community development, and we encourage ongoing support for the invaluable services you offer.

Fives Services Mzansi looks forward to continued collaboration in initiatives that foster growth, empowerment, and sustainable economic participation.

Yours sincerely,

Aroon Patel
Managing Director
Fives Services Mzansi
